Hub & Spigot Pipe and Fittings for the Self-Locking "Bi-Seal" EPDM Gaskets

"Bi-Seal" provides a positive compression seal between hub and spigot at three separate points.

"Bi-Seal" is easy to install without complicated tools.

"Bi-Seal" will absorb marked deflection after assembly without leaking.

"Bi-Seal" will handle both residential and industrial wastes.

"Bi-Seal" is made to CSA B70 specifications for use with Bibby-Ste-Croix Hub and Spigot Pipe and Fittings.

S4001, Bi-Seal Gaskets for 2" (50 mm) through 15" (375 mm)

Bi-Seal Compression Joints – Series 4001

Code	Size	Qty per Box	Weight / Box
s 29020	in. 2 mm 50	50	10.0 lb. 4.5 kg
